WIRING AND METHOD OF MANUFACTURING THEREOF )

REQUEST FOR CERTIFICATE OF CORRECTION

To: Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Pursuant to 37 CFR § 1.22, enclosed is a Certificate of Correction for filing in the above-identified case.

This certificate of correction is being submitted to correct a clerical error that occurred in Amendment F filed on October 20, 2006 in this case.

In Amendment F, Applicants amended independent Claims 26 and 31 (now patent claims 1 and 11) to change "a wiring" to "a gate electrode." At that time, the dependent claims (i.e. Claims 46 and 48) should have been changed in a similar manner so as to be consistent with the independent claims. Through a clerical error, this amendment was not made.

Accordingly, Applicants are amending Claims 5 and 15 to change "the wiring" to "the gate electrode," to correct this clerical error so that the dependent claims are consistent with the independent claims. This correction does not constitute new matter and does not require reexamination.

Therefore in accordance with 35 USC §255 and 37 CFR §1.323, it is respectfully requested that this amendment be entered and allowed, and a certificate of correction issued.

As the error was made on the part of the Patent Office, no fee is believed due. However, if any such fee is necessary please charge Deposit Account No. 50/1039.

Respectfully submitted,
